

Instructions to Participants

Thank you for participating in the survey! We are collecting data about your thoughts on the AI-GENe events. This data will be used to guide the AI-GENe Program and may ultimately be used for a research publication and reporting to the NIH.

Data confidentiality

Responses are anonymous. The potential risks to you are small. The potential benefits to the education community are high—we will use this information to guide development of education material. Please do not include names, institution names, email addresses, or other identifying information in your written responses.

Data sharing

No personally identifiable information, such as response timestamps, will be shared.

Participation

You must be 18 or over to participate. You will be asked a series of questions about your experience with the AI-GENe modules. **By completing this survey or questionnaire, you are consenting to be in this research study. Your participation is voluntary, and you can stop at any time.** You do not need to answer optional questions. Any answers you have filled in will be automatically submitted if you close the browser tab.

Depending on how you answer the survey, this will take approximately **3–6 minutes** to complete.

Risk

Risk of participation is minimal. The questions we ask pose minimal security risk to participants, as they focus on your personal experience and expectations. While we have taken measures to ensure the security of the survey responses, please be aware that no online system is completely secure. By participating in this survey, you understand and accept the inherent risks associated with transmitting information over the internet.

Consent

The first question asks whether you are at least 18 years old and whether you consent, or agree, that data from your responses may be used for AI-GENe development purposes.

Questions or problems

If you have questions or problems, contact:

- Ava Hoffman at ahoffma2@fredhutch.org (<mailto:ahoffma2@fredhutch.org>)
- Michael Schatz at mschatz@jhu.edu (<mailto:mschatz@jhu.edu>)

You may also contact the Johns Hopkins University Homewood Institutional Review Board (IRB) if you have questions about your rights as a participant. Contact the IRB if you feel you have not been treated fairly or if you have other concerns.

- **IRB No.:** HIRB00024197

Your experience with AI-GENe

The questions displayed on this page are based on how you described yourself previously.

Please do not include names, institution names, email addresses, or other identifying information in your written responses.

Describe the institution where you do most of your instruction.

- ☐ Doctoral University – Very high research activity (R1)
- ☐ Doctoral University – High research activity (R2)
- ☐ Master’s College or University
- ☐ Primarily Undergraduate Institution (PUI)
- ☐ Community College
- ☐ High School
- ☐ Other

*

Optional: If you selected “Other,” please describe the type of institution where you do most of your instruction.

*

How helpful did you find our session?

- ☐ Not at all helpful (1)
- ☐ Slightly helpful (2)
- ☐ Moderately helpful (3)
- ☐ Quite a bit helpful (4)
- ☐ Very helpful (5)

*

How likely are you to recommend AI-GENe materials to others?

- ☐ Not at all likely (1)
- ☐ Slightly likely (2)
- ☐ Moderately likely (3)
- ☐ Quite likely (4)
- ☐ Very likely (5)

*

How confident do you feel right now in your ability to facilitate this course and/or our materials with your own participants?

- ☐ Not at all confident (1)
- ☐ Slightly confident (2)
- ☐ Moderately confident (3)

- ☐ Quite confident (4)
- ☐ Very confident (5)

*

Do you intend to deliver this content? If yes, select the modules you intend to deliver. Select all that apply.

- ☐ Genome Annotation and the Phenotypic Effects of Variants
- ☐ Predicting Gene Expression Patterns
- ☐ Predicting Protein Structure from Genomic Data
- ☐ Sample Collection and HMW DNA Isolation
- ☐ Assessing and Improving DNA Quality
- ☐ DNA Library Preparation and Long Read Sequencing
- ☐ Sequencing Data QC & Taxonomic Profiling
- ☐ Metagenome Assembly & AMR Gene Annotation
- ☐ LLMs and Scientific Literacy
- ☐ Full miniCURE (all modules listed above)
- ☐ I do not intend to deliver this content

*

What support or resources would help you feel more ready to teach this?

*

What barriers might prevent you from delivering this content in the next 12 months?

*

What would make you more likely to deliver this content more than once?

*

Please provide any other comments you have.
